3daysofdesign

Set against the backdrop of Copenhagen's historic cityscape, 3daysofdesign offers a unique opportunity for discovery and connection. From June 18th–20th, the city will host a global community of designers, makers, visionaries, and design enthusiasts.

A New Location

Harsdorffs Hus

A 3D perspective line drawing of a rectangular room. The room features a central staircase with a glass railing. The walls are lined with several rectangular openings, possibly windows or doors. On the floor, there are three circular objects, each with a small circle in the center, arranged in a triangular pattern. The drawing uses solid lines for visible edges and dashed lines for hidden or structural elements.
